➤ How NewsNow can help

NewsNow's services are successfully deployed within organisations of all sizes, ranging from small businesses to listed companies, and are easily customised to serve almost every department, from the press office to the boardroom.

So if news is important to you, we can help...

Press cuttings

Designed for busy press officers and PR executives or anyone whose job it is to gather and monitor media reaction to information.

- Use in a crisis when you need to know how news is developing minute-by-minute
- Evaluate PR campaigns and their success online
- Detect press inaccuracies as they happen

Competitor awareness

Designed for marketing departments or anyone whose job it is to feed competitor intelligence to management, product development and sales departments.

- Keep competitor dossiers up-to-date and accurate
- Track competitor press releases
- Receive alerts on vital competitor product news

Market awareness

Designed to complement traditional market intelligence by gathering relevant news about the external environment.

- Stay up-to-date with news about clients. Ideal for account managers
- Monitor economic indicators and trends that affect your industry
- Monitor markets in over 140 countries

Website news feeds

Designed for web designers and content managers who want custom, continuously updating newsfeeds that can be automatically inserted in a site's look-and-feel.

- Automate time-consuming news content creation
- Impress and attract web site users with niche, interesting, relevant news

Internal communications

Designed for communications departments, keeps staff informed of development in your market, industry or areas of special interest.

- Educate employees
- Demonstrate your open communications policy
- Boost employee morale and knowledge with news about your organisation
